

Bio-Oxide

Boost Odor Elimination Accelerator

Mixing **Bio-Oxide Boost** with **Bio-Oxide Pet** more than quadruples its odor elimination power to quickly quench your most vile odors. This powerful duo's progressive chemistry easily penetrates heavily saturated stains, like male cat urine, leaving surfaces completely odor free.

Unlike bleach, disinfectants and most "odor removal products," **Bio-Oxide's** non-hazardous ingredients bond with odor molecules, permanently destroying stench in as little as 4 hours.

For smoke and food smells use **Bio-Oxide Smoke**.

- 100% biodegradable
- 100% non-hazardous
- Safe to use around pets
- Environmentally safe
- No harmful by-products
- Non-toxic
- Non-staining
- Non-flammable
- Neutral pH
- Safe on fabrics
- One-step spray application
- No wait dry time
- Zero clean-up time
- Leaves no residue
- Penetrates fabrics used in drapes, furniture, flooring and textured ceilings.

Where to use

Ideal for use on water-safe floors and walls, including wood, concrete, gypsum.

Recommended Preparation

Vacuum or sweep floor. Test an inconspicuous area before application on walls to ensure finishes are water safe.

Ready to use. DO NOT DILUTE. 600 to 800 s/f coverage per gallon.
